Abstract (en)
[origin: EP0722753A2] A leather holder for at least one tee, fork and marker is detachably attached to the belt (1) which has a separate ball-holder (2). The ball-holder has two rings (21) with internal diameter when not extended smaller than the diameter of the golf ball (22). The rings, made of metal spiral springs, are joined by several flexible bands (24) one of which has a connection (28) in the form of a U-shaped bracket for attaching it to the belt. The bands are reinforced by flexurally elastic strips. The belt is joined to the holder by a hook pile fastener (16).
