Abstract (en)
[origin: WO9510966A1] The object of the invention is to provide a cup used to serve coffee, tea, milk and other similar drinks, particularly suitable to be used in public premises, in order to assure the maximum hygiene and avoid the danger of infections. The cup is constituted by a container (1) made of ceramic or other proper material, of any shape and dimension, and a waterproof film (4) of proper material, for example, plastic. The container (1) and the film (4) have particular technical devices (2, 5) in order to assure the film (4) irremovability during the use and the perfect adhesion of the same to the container surface.
