Abstract (en)

The recloseable clamshell package of the invention includes a container portion (14) and a lid portion (34). The lid portion has a lip portion (36) which is congruently shaped with the container lip portion (32) for mating engagement therewith in order to form a closed package. The lid portion includes corner portions (38,40,42,44) which are congruently shaped with the container corner portions (24,26,28,30) for mating engagement therewith. <IMAGE>
