Abstract (en)

[origin: EP0727358A1] The box (1) has in addition to the reclosable opening an automatically closable opening (6) . Inside the box there is a deformable cross wall and the delivery opening is on one side and the automatically closing opening on the other. With the initially empty box the cross wall directly adjoins the wall (4) of the box having the automatically closing opening. One section of this wall extends along a wall section (9) of the box adjoining said wall (4) and the ends (10) of the cross wall are fixed on the box.
