Abstract (en)  
[origin: EP0727377A2] The delivery unit has adjustable sheet stops (2,3,6) set in a horizontal plane. The unit is divided into a part on the machine side and a part remote from the machine. The latter part is displaceable together with the rear sheet stop (2) fixed to same horizontally up to and away from the printing machine. The two parts of the delivery unit are connected together by linear guides (8,9) with one provided on each side. The part of the delivery unit remote from the machine can have two side parts (4) each fitted with an end of the rear sheet stop.
