Abstract (en)

[origin: EP0730078A2] Folding casement arrangement in which the underside (4) of the glass or plastics pane (5) of the folding casement (1) has the linkage point or points (6) for the swivel drive. A shank (8) of the pivoting linkage (9) is fastened to the underside or to the edge side (7) of the pane. The linkage point incorporates a fitting (22) which is joined by a screw or an adhesive to the underside of the pane. A circumferential seal (11) is provided in the region of the opening (3) of the glazing construction (2).
