Abstract (en)

[origin: EP0730920A1] The appts. for lifting of the top roll (2) which is mounted on a pivotable link (5) joined to roll lifting elements (7). On top, with interposed thrust units (9), the link is joined with an adjustment member (5d). The adjustment member is connected to at least one mechanical lifting elements which is positionable by means of an AC motor (8a).
