Abstract (en)
[origin: US5893359A] PCT No. PCT/DE95/01257 Sec. 371 Date Nov. 12, 1996 Sec. 102(e) Date Nov. 12, 1996 PCT Filed Sep. 14, 1995 PCT Pub. No. WO96/10153 PCT Pub. Date Apr. 4, 1996 The present invention relates to an arrangement for assembling and mounting a built-in cooktop such as a glass-ceramic cooktop wherein the cooktop is seated latchably secured from above in a countertop cutout provided therefor. Tolerance problems between the built-in cooktop and the countertop cutout are avoided in that, in the assembly into the countertop cutout, an ancillary assembly frame is premounted with a precise fit to the built-in cooktop. The built-in cooktop is seated in the ancillary assembly frame and is secured via clamping connections or latch connections.
