Abstract (en)

[origin: EP0733748A1] The device comprises a flow volume regulator (4), and a front outflow filter (5) which is located on the intake side of the regulator. The filter and regulator are removable fastened to each other via connectors (6). The set contains a jet regulator (3) on the outlet side of the flow volume regulator. The two regulators are also connected. The connectors are located on the ends of the three parts and consist of locking devices. Connection is by hand.
