Abstract (en)  
[origin: WO9517306A1] Screen material made of wire intended in particular for screen printing cylinders, in which the holes (4) are bounded in such a way by wire pieces (1) which are joined to each other locally (2) that an at least virtually flat non-woven screen surface is obtained, adjacent wire sections (3) each comprising two or more wire pieces (1) which extend preferably uncrossed in substantially the same direction; method and device for the production thereof.
