Abstract (en)

[origin: WO9517549A1] A multi-layered smooth surface aramid paper with high break strength and tear resistance comprises a substrate layer and at least one surface layer intimately bonded to the substrate layer, wherein the surface layer(s) consists essentially of 65 to 90 % by weight aramid fibrils and 10 to 35 % by weight aramid floc and comprises 10 to 67 % of the total basis weight of the paper.
