Abstract (en)

[origin: EP0736378A1] When a color paste is squeegeed by a squeegee in printing the fabric by a flat screen textile printing machine, a screen (118 b) is separated from the surface of the fabric by raising a screen frame (118 a) at the side of start of squeegee (114) travel at the same time as, or with a slight time lag after, the start of squeegeeing, while squeegeeing is carried out. <IMAGE>
