Abstract (en)
[origin: WO9518037A1] This invention relates to arrangements at hatches and the like for openings of holds in ships. The novelty lies therein that at least some hatches are arranged as hatch elements (4) and have at least one seat (6) for receiving at least one loading platform (7) in turn arranged to carry goods and provided with locking means (8) for the detachable connection with lifting tools or the like lifting device (11).
