Abstract (en)

[origin: US5743017A] A device for heating of the blades of scissors, knives and the like, with heating module comprising an electrical heating strip provided on the metallic blades, connecting conductors for providing current to the heating strip, and a cowling of a synthetic material. The heating module is capable of being fastened on the outer surface of the blade. The heating strip is in thermal conductive contact with the outer surface of the blade, extends over the length of the cutting edge of the blade, and is on its outer surface covered with a cowling of a synthetic material.
