Abstract (en)

[origin: WO9518620A1] Provided herein is a method of administering a free arachidonic acid metabolite to an animal, the method involving administration of the free metabolite and an endocytosable particle. This method can be used to treat animals afflicted with disorders characterized by cell activation and adhesion, inflammation or toxemia. Also provided is a method of treating an animal for such disorders by administration to the animals of a composition containing an anti-disorder effective amount of an endocytosable particle.
