Abstract (en)

[origin: WO9615542A1] A method for assembling two parallel plates (1, 2) forming the bottom and the surface respectively of a flat display, comprising a step of degassing the plates (1, 2) and vacuum debugging step. According to the method, a first plate (2) is debugged by electron bombardment, the first plate is placed in front of the second plate (1) without being exposed to air, and the two plates (1, 2) are joined together using a specific peripheral seal.
