Abstract (en)

[origin: EP0740012A1] A laundry dryer of the household type having a top-loading rotating drum (3) and condensation water collecting capabilities, wherein an upper handhole bezel (19) of the laundry dryer forms an access slip and an accommodation pan (17,20) for a condensate collecting tank (5), disposed between the machine front wall (6) and the rotating drum (3), the tank collector (5) being received removably within said accommodation pan (17,20) through the handhole slip (19), without hindering access to the loading door (4) of the drum, the pan (17,20) being provided with a gutter (22) for catching any overflow from the tank and any condensate on the tank exterior, in communication with a condensate collecting pan (13) associated with a condenser (10). <IMAGE>
