Abstract (en)

[origin: WO9510955A2] A helmet which includes: a crown (10) molded from a composite formed with a polymeric material and a reinforcement fiber; an adjustable internal harness (11) which operates by traction and is meant to support the weight of the crown; a thin part (12), which is substantially thinner than the crown (10) and is fixed inside it; and anchoring parts (14-19) which are arranged on the thin part (12) to allow the anchoring of the harness (11). The helmet allows to achieve maximum reliability.
