Abstract (en)

A process for removing wood or fibre from bast fibre washes is claimed. The raw material is subjected to a preliminary comminution before the removal to form pieces that are of a pourable or flowing consistency. The pieces are subsequently de-fiberised in a mill that rotates at a high speed.

Abstract (de)

Nach dem erfindungsgemäßen Verfahren wird das vorzerkleinerte Material in Stücke von schütt- und/oder fließfähiger Konsistenz in annähernd gleichlange Stücke zerkleinert und diese Stücke anschließend in einer hochtourig rotierenden Mühle entfasernd, wobei die Entfaserung durch Einwirkung von Prall und/oder Reibung und/oder Scherung erfolgt.
