Abstract (en)

[origin: EP0745411A2] A device for registering and presenting bidding in a game of bridge. According to the invention, the device comprises a computer unit (1-5) which includes at least one bid-entering keyboard (2-5), means for comparing the entered bid with bids permitted by the bridge rules, means for preventing impermissible bids being presented, means (1) for registering entered bids, and means for presenting or displaying the entered bid. <IMAGE>
