Abstract (en)

The present invention relates to a packing for an article such as a foodstuff. The packing comprises a tongue (8) facilitating the opening of the packing, formed by making a cut (7) in a zone hermetically isolated from the remainder of the film (1) and extending from one edge of the film (1) prior to heat-shrinking the packing. The invention is applicable to packings for use under vacuum or with a modified atmosphere for foodstuff.
