Abstract (en)  
[origin: EP0746003A2] The electrical pushbutton switch has a main body 10 that is configured to include a first indicator bulb 20 that shows the state of the actuator 12. The front section of the housing has connection points 18 and has locations to receive the contacts of a bulb holder 32. The holder has a pair of sockets to receive a pair of indicator bulbs and has a hinged cover. The bulbs show the status of the switch
