Abstract (en)
[origin: WO9428347A1] A handle assembly for a portable light, said portable light being convertible between a flash light mode and a lantern mode, said handle assembly including a handle means having ends which engage the body of the light characterised such that a part or all of said handle means can be moved from a first arrangement by which said handle allows the light to be gripped as a flashlight to a second arrangement wherein said light can be gripped as a lantern.
