Abstract (en)
[origin: EP0747517A1] A disseminator wheel for an open-end spinning appts. has a base piece with at least parts of the wheel end face, the base being connected to a wheel shaft which is mounted and able to rotate in a bearing. There is a holder for an active trimming occupying at least parts of the wheel end face and one or more fixing means for firm attachment of holder and base. The fastening of the trimming holder (12) is carried out from the wheel (1) end face (14) towards the bearing (3) and the shaft is covered by base (11) or holder (12).
