Abstract (en)  
[origin: WO9524219A1] A wool grease fraction having a substantially neutral oxidation profile and a formulation for topical application to wool producing animals, said formulation comprising a light stable active agent in a vehicle comprising a wool grease fraction having a substantially neutral profile. A formulation for topical application to wool producing animals, said formulation comprising a light stable active agent in a vehicle comprising at least one of a sterol ester, a wax ester, a triterpene ester containing substantially unoxidised isocholesterols or an analogue thereof. Processes for manufacturing the fractions and formulations and methods of controlling pests employing the formulations.
