Abstract (en)

[origin: EP0750277A2] The hand held postal franking machine has a chassis unit 222 that has spindles 221,222 on which are mounted drive wheels 225,2231 that are mechanically connected by a coupling wheel 224. Built into the well of the chassis is an ink jet print head 21 together with an exchangeable ink cartridge 213. Mounted on top of the chassis is an electronic module 3 that has a microprocessor 320 and battery 321 that connect with a charge card 4 reader and connects with the print head. The head has a cap unit with a facility for cleaning the nozzles. A cover 1 completes the unit
