Abstract (en)

[origin: EP0753452A1] The interior element is pref. installed above the windows. It consists of a single profile (1) with e.g. downward-curved tongues (2,3). These are for fastening to available fastening points in the carrier body. One of the tongues has a contact point for a security screw (4). The profile may be hollow, having several apertures, and transverse stiffening ribs, located at relative distances. It is an extruded profile, pref. of aluminium, and the transverse ribs are welded.
