Abstract (en)  
Structure for the assembly of sliding doors, made up of at least an upper tubular track (1) along which may slide rollers (2) from which doors (4) are suspended. The track has on its upper wall an internal longitudinal channel forming (12) in which the heads of the fixing screws are housed, whereas it is externally fitted with wings (15) that define, together with the outside of the channel forming (12), the track (1) resting base. The rollers (2) incorporate a frame made from an U shaped profile. <IMAGE>
