Abstract (en)

[origin: EP0754412A1] Outer tongue to cover flaps on ski boots (10), which comprise at least two frontal flaps (11a, 11b) positioned side by side or overlapping substantially at the central vertical longitudinal plane (22) of the upper (13) and also clamping clasps (14), the outer tongue (12) being associated with the front upper side of the upper (13) of the boot (10) in a longitudinally slidable manner together with slidable anchorage means (20), and covering, in the closed position of the boot (10), at least the zone of union of the flaps (11a, 11b) astride that plane (22) and cooperating outwardly with the clamping clasps (14) and being displaced towards the instep of the foot, the outer tongue (12) being resiliently anchored to the upper (13) on only one side thereof and including on its side opposite to the anchorage side a shaping (21) of a reduction of width. <IMAGE>
