Abstract (en)

[origin: WO9528274A1] The invention concerns a process for manufacturing a tube from plastic. The body of the tube has an outlet aperture smaller in diameter than the tube body itself, and a cap is provided which can be fitted over the outlet aperture to close it. According to the invention, the tube body and cap are connected by a hinge and manufactured in one stage by injection moulding, the tube body undergoing a further process in a second stage to alter its shape.
