Abstract (en)
[origin: EP0757368A2] A rocker switch unit featuring a two-colour bicomponent switch (14); a casing (11) with a small continuous channel (15) for collecting and draining liquids and/or condensate open on the front and having drainage outlets (15'); a base (12) made of a material different to that of the casing to make it more resistant to thermal shock; and a moving contact (13) acting as both a positioning spring and as a true contact.
