Abstract (en)
[origin: EP0758697A1] The central stays (23,24) of the protective plank arrangement (21,22) serving for the releasable fixture to the face sides of the distance braces (6) are arranged in a V-formation in relation to one another. Underneath the ends of the distance braces in V-shape longitudinal channels (30,32) of the protective plank arrangement facing the profile posts (4) contactless support components (42) are provided. Stiffening components and the support components comprise pipe pieces (43) matching the inner concave contour of the longitudinal channels (29,31,30,32), together with tabs (45,47) connecting the pipe pieces with the ends of the distance braces.
