Abstract (en)

[origin: WO9532273A1] Powder detergent composition for machine washing clothes and containing a bleaching system comprising sodium or potassium percarbonate, optionally activated by a bleach activator, stabilized by a cogranulate consisting of sodium or potassium carbonate, sodium or potassium silicate and water combined with alkaline silicate, the weight ratio of water combined with silicate to silicate being 33/100-120/100. The invention also concerns the use of such cogranulates for stabilizing a bleaching agent system comprising percarbonate.
