Abstract (en)
[origin: US5664857A] A metal fitting (10) for holding a front face (12) of a drawer at its side walls (16). The metal fitting is composed of a holding part (14), which is to be fastened to the surface of the front face (12) on the inner side of the drawer, and of a receiving part (18) at each side wall of the drawer. An extended, bracket-like projection (24), protruding from the side of the holding part (14) averted from the front face, can be introduced into the receiving part (18) and can be locked detachably by a locking element (46) in the holding part (14), which locking element (46) is acted upon by a spring under tension and can be swiveled between two stable end positions
