Abstract (en)
[origin: EP0761438A2] The printer which can be an ink jet type device is used not only for flat objects but also for such items as housing parts, toys etc (7) The article is placed on a carriage on a slideway (4) and is moved by a rack (9) coupled to a drive (3) that controls the print head (1). The carriage moves in one plane (6) and can be adjusted relative (10) to the print head. This allows a height range of 10-500 mm to be obtained
