Abstract (en)
[origin: EP0761896A1] A fire resistant panel structure comprises an opposed pair of panels (1,2) each comprising two steel sheets (3,4) separated by a filling (5) formed of cementitious material and having a thickness of a first order and sandwiched between the panels is a central insulating board (6) having a thickness of a second order of size. The second order of size is greater than the first order of size. <IMAGE>
