Abstract (en)
[origin: EP0762546A2] The socket unit has a flat rectangular main body with a pair of formed hook shaped elements projecting from the base. The hooks are located into a wall mounted fitting and securely latch the plate into position. Within the socket housing is a block that has a number of contact bushes and a spring latch with a profiled tip. A plug connected to an item of equipment has a corresponding number of pins and latches into the socket.
