Abstract (en)

[origin: US6011523A] PCT No. PCT/EP95/02162 Sec. 371 Date Jan. 28, 1997 Sec. 102(e) Date Jan. 28, 1997 PCT Filed Jun. 6, 1995 PCT Pub. No. WO95/33515 PCT Pub. Date Dec. 14, 1995 In order to provide a device for the control of oscillating electromagnetic fields, in particular those from mobile radio transmitters, so that detrimental frequency intensity spectra are converted into largely innocuous spectra, the invention proposes that the oscillator coils are disposed parallel to each other and at least one container filled with a powder mixture is disposed longitudinal side of the oscillator coils.
