Abstract (en)  
A shaped reflector comprises a plastic film having a reflecting layer and fixed to a support. The support is a steel sheet coated with a layer of lacquer. Also claimed is a light having an optical assembly comprising different optical components based on the claimed reflector. Pref. the steel sheet is coated with lacquer on both surfaces. The plastic film has a steel protective coating which contacts the layer of adhesive. The lacquer is a polyester lacquer.

Abstract (fr)  
Ce profilé est constitué d'une feuille de polyester (1) réflectorisée par une couche d'argent (2), la feuille étant collée sur une tôle d'acier ordinaire (5) munie d'une couche de laque (4). Applications : luminaires <IMAGE>
