Abstract (en)
[origin: EP0766152A1] The antenna (4) is a dielectric with a printed circuit antenna which is either a dipole or a radiating slot. The antenna is housed in a slot (25) between an outer (2) and an inner (5) container. The inner container has a time display (7), and a miniaturised transmitter/receiver (6) connected to the antenna. The radio system is designed to receive and transmit messages.
