Abstract (en)

[origin: US5733308A] A surgical pledget dispensing system wherein a pledget is affixed to at least one other object whereby the pledget is tearably releasable from the at least one other object. Preferably a multiplicity of pledgers are affixed to the at least one other object in a tearably releasable fashion. The at least one other object is preferably at least one runner, a portion of a suture package or at least one other pledget.
