Abstract (en)
[origin: WO9601215A1] A refill dispenser (1) that encloses a package body (3) which is a disposable article and contains a fluid product (18). The refill dispenser (1) consists of a pumping means (2) which is provided at its one end with a valve (6) and at its other end with a collar (21), onto which a fixation element (4) and a holding means (5) are mounted. The package body (3) is secured at its one end on its lip opening (8) by the valve (6) and at its other end on its securing area (19) by means of securing means (11) for the fixation element.
