Abstract (en)

[origin: EP0768444A1] The connecting angle piece (1) has a double-walled part (19) protruding at right angles from the plane of the door leaf. The ends of the connecting part (19) on the door leaf side are each bent at right angles outwards into fixture sections (12) protruding sideways and outwards in opposite directions. The fixture sections have fixture parts (11,13,14) bracing on both sides parallel to the centre plane of the wall (19). The fixture sections and fixture parts contain screw holes (15,17,18).
