Abstract (en)
[origin: EP0774627A2] Guide devices and a front wall are fixed to the drawer. The drawer (5) is a one-part plastic body on which all essential functional components of the drawer and particularly the base wall (21) are formed in one piece. A decorative wall can be clipped on securing devices (29) formed on the drawer front wall (23). Guide pins (49) are formed on the two side walls of the drawer and are movable in guide strips (11) fixed to the inner walls of the housing. The guide strips are of metal and act as reinforcement to the side walls. Base guide ribs are formed on the base of the drawer. The drawer is made of a plastics with high butadiene or silicon components.
