Abstract (en)

[origin: FR2735340A1] A tent card forming a holder or packaging and made of cardboard or another semi-rigid sheet material. The tent card includes a series of at least four substantially rectangular surfaces (1, 2, 3, 4) mutually separated by substantially parallel fold lines (5, 6, 7, 8). The first and second side surfaces (1) may carry a promotional or informative message (19), the third surface (3) forms the base of the tent card when it is in the normal use position, and the fourth surface (4) is foldable onto the third surface (3) inside the card. Means (9, 13) are provided for connecting the lower free edge (10) of the first side surface (1) to the joint area (12) between the third surface (3) and the fourth surface (4), which third and fourth surfaces (3, 4) define a surface and/or a space in the lower portion of the tent card for receiving objects (17) to be displayed or packaged.
