Abstract (en)  
A mobile filing cabinet provided with a moving device, which moving device comprises ground wheels, which can run over a runway, and a toothed wheel, which is in engagement with a profiled track extending along said runway. The toothed wheel can run over the track while being in engagement therewith. The profiled track comprises a perforated section, whereby a pitch distance between the perforations formed in said section is the same as the pitch of the toothed wheel. <IMAGE>
