Abstract (en)  
This rest or tray (19) holds toiletries, e.g. soaps and nail brushes. The fastener (20) holds it to a surface-mounted mixer tap (11). Preferably, this allows the tray to be fastened between the tap and a wall on which the mixer tap is mounted. The fastener grips the union nuts or pipes of the valve. Various purpose-designed fittings may be attached, to hold the items. The device is of integral construction. It is a circular segment, fitting around the valve body. There is a holder for a hand shower nozzle. The tray is made of polycarbonate, polypropylene or polyoxymethylene, especially by pressure injection moulding. The mounting is at least three-point, preferably four-point.
