Abstract (en)
A dispenser (1) for pasty products, such as toothpastes, cosmetic creams and the like, that dispenses the desired amount of product accurately and repeatedly, comprises a deformable cap (7) that fits over a rigid container (2) and with the latter defines a pumping chamber (8) which communicates with the container (2) and with the outside via suction (9) and delivery (11) openings, both of which are fitted with shut-off members (10, 12), a portion (17) of predefined large thickness being formed in the said deformable cap (7) so as to form an essentially rigid push button (19).
