Abstract (en)

A process for the fixing of a toner onto a printed support in a document copying machine , by contact of the support onto which the toner is deposited with a chemical fixing agent in the valour state. The fixing agent is a 3 - 6C hydrofluorocarbon. Also claimed, are the compositions comprising the fixing agent.

Abstract (fr)

Pour fixer un toner à un support d'enregistrement dans un appareil d'impression ou de reproduction de documents, on met le support d'enregistrement sur lequel est déposé le toner en contact avec un agent fixateur chimique à l'état gazeux, contenant un hydrofluorocarbure en C3-C6 et, de préférence, un co-solvant.
