Abstract (en)
The cable connector unit (18) has an outer shielded box with a slanted entrance hole for the outer braiding of the cable (11). The stripped inner of the cable is inserted in an elongated end hole (34). A screw (28) in the outer cover tightens on the inner to hold it in place. The lower section of the shielded box has a cable connector, with the outer forming part of the box and electrically connected to the braiding, and inner internally connected (31) to the inner conductor holder. A TV cable (24) plugs into the socket.

Abstract (fr)
Ce boîtier de raccordement comporte une enveloppe externe (18), qui forme un blindage, et qui présente une entrée (20) et une sortie (21), avec, dans cette enveloppe externe (18), une borne de connexion (26), et, en aval du siège (27) de celle-ci, une pièce en matière isolante (32) formant un logement (34) pour l'extrémité de l'âme centrale (13) du câble coaxial d'arrivée (11). <IMAGE>
